The District is not responsible for seedlings not picked up by 11:00 a.m. Saturday, April 29th.

Planting survival rates of bare-root seedlings vary from site to site, from excellent to poor. We strive to provide the most viable seedlings. All efforts are made to prevent root stress. **The Conservation District and seedling suppliers cannot guarantee the success rate of seedlings. Our Seedlings will be healthy when picked up, but not guaranteed after the pick up date.**

The District will not ensure successful planting of bare-root seedlings, just as our supplier will not ensure seedling survival. **The District is not responsible for mistakes made by the suppliers of our seedling stock.**

Please keep for your records

DESCRIPTION OF SEEDLINGS AVAILABLE
YR = AGE OF SEEDLING, EXPECTED HEIGHT FROM OUR DISTRIBUTORS

Colorado Blue Spruce (*Picea pungens glauca*) 3 yr., 10"-18". Blue-green color, prickly texture and strong aroma render them conveniently deer-resistant. Grows to 6 feet in 10-12 years. **10=Bundle**

Norway Spruce (*Picea abies*) 2 yr. 5"-12" This graceful pyramidal has sharp, shiny, dark needles. Beautiful spreading branches with drooping twigs. An extremely hardy tree that is successful under most soil conditions. **10=Bundle**

Canadian Hemlock, (*Tsuga canadensis*) Native species. 2 yr., 4"-8". Flat needles not jagged, 3/4inch in length. Best in cool, moist soils, pyramidal crown, grows to 6' in 10-12 years. Can be pruned as hedge. **PA State Tree!** **10=Bundle**

Liberty Apple
A medium-sized, yellow fleshed dessert apple. Vigorous, spreading and annual bearer. A good choice for home gardner.

Initial Apple
GalaXRedfree Cross, has a good size and a red blush over yellow background. Tree is non-vigorous with crisp, mild acidic flavor.

American Red Pine (*Pinus resinosa*) 3 yr 8"-16" A rapid growing pyramidal pine with flexible, sharply pointed lustrous dark green needles. A very hardy pine, growing well in a variety of soils. Good as an ornamental or as a windbreaker. **10=Bundle**

Eastern White Pine, (*Pinus strobus*) 2 yr., 4"-8". Very hardy pine. Needles are soft and bluish-green. With adequate moisture, growth can be 12" to 18" per year. Ideal for specimen planting, shade, windbreaks and Christmas trees. **10=Bundle**

White Flowering Dogwood (*Cornus florida*) 12"-18" A small deciduous tree growing to 10 m (33 ft) high, often wider than it is tall when mature, in spring it is covered with white-petaled flowers, in early fall red berries and crimson leaves. **10=Bundle**

Harrow Sweet Pear
A late season pear. Good resistance to fire blight. Fruit size and appearance are similar to that of Bartlett; however, Harrow Sweet does develop an attractive blush.

Olympic Pear– (*Asian*)
The fruit is round, heavily russeted brown Asian pear. The flesh texture is juicy and crisp. One of the best pears for long term storage.

American Redbud, (*Cercis canadensis*) 12"-18" A small flat-topped tree, producing pink blooms on bare stems in early spring. Foliage is large and heart-shape, changing to yellow in the fall. Does well in a protected location. Does well in a variety of soils. **10=Bundle**

Butternut (White Walnut) (*Juglans cinera*) 12"-18". Nuts resemble Black Walnuts, but smaller with an oily spicy flavor. Tree is best known for the rich quality of its wood. Slow growth rate, and reaches 50—60' at full maturity. **10=Bundle.**

American Elderberry, (*Sambucus canadensis*) 12"-18". Large spreading shrub with large, flat –topped white flowers in June-July followed by purple-black berries. Can be used for jellies, pies, and wine. Excellent for attracting birds. **10=Bundle**

Red Haven Peach
A blue ribbon peach that is easy to grow and maintain. A luscious, almost fuzzless skin over firm, creamy yellow flesh. Tree is heavy bearing and disease resistant, especially against leaf spot. Ripens in late July, self pollinating.

Danube (Tart Cherry)–
A tart cherry in dark red color, medium to large and sweeter than Montmorency. They are very productive.

NY9 Plum
A bright blue with yellow-green flesh. Productive and disease resistant and considered self-fertile. Good quality plum that is great for fresh eating and processing. Upright tree with a spreading habit. Tree has a low vigor, but is very productive.

Apple Trees

4-5' root stock, Semi dwarf grows to 10'-15' Packaged one each of the following for proper pollination

Pear Trees

4-5' root stock, Semi dwarf grows to 15'-18' Packaged one each of the following:
